

KIRTLAND WARBLER (*Dendroica kirtlandi*) FOUND BREEDING.

Ohio ornithologists congratulate Michigan ornithologists upon their great good fortune in finding the nest, eggs and young of Kirtland Warbler in their own state. We shall await with keen anticipations the appearance of the next Bulletin of the Michigan Ornithological Club, with its promised contributions on the life history of this little known warbler.

These nominations are to be made during the month of September, and should be sent to the President, Lynds Jones, Oberlin, O.; they will be counted if mailed on the last day of September.
